

# Chemeketa Storm Academic Data

The following information is a snapshot of a Chemeketa student-athletes academic progress. This information is gathered from the official eligibility forms which are submitted to the NWAC office and the Chemeketa department of institutional effectiveness. A class is determined by the first year of actual participation in a sport at Chemeketa. **Retention rate** is based on the student-athletes enrollment from fall quarter of first year of participation through enrollment of fall quarter of second year at our institution. **Graduation rate** is based on the award of a certificate or associates degree to a student-athlete by Chemeketa Community College. **Transfer out rate** is based on those who do not attain a certificate or associates degree but transfer to another two-year or four-year institution. **Four-year Transfer rate** is based on the student-athletes who transfer to a four-year institution and were officially enrolled, regardless of whether they earned a certificate or degree from Chemeketa, or continued to participate in sports at the four-year institution.

These numbers are not a perfect reflection, as they do not acknowledge those students who may transfer into a program within the same institution, or another two year institution, for a program such as Nursing, EMT, Dental Assisting, or other specialty programs. It also doesn't include students who may have completed the necessary coursework but didn't officially apply for the degree evaluation. It also can affect numbers if a student-athlete transferred to our school with only one year of eligibility remaining.

## Class of 2011

New Athletes	77
Retention Rate	75.32%
Graduation Rate	25.97%
Transfer Out Rate	37.66%
Four-Year Transfer Rate	40%

## Class of 2012

New Athletes	71
Retention Rate	79.1%
Graduation Rate	26.8%
Transfer Out Rate	38.0%
Four-Year Transfer Rate	49.2%
