ANNUAL CAMPUS SECURITY REPORT

REPORTING STATISTICS FOR CALENDAR YEAR 2010

Prepared September 2011

Introduction

The *Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act* (the Act), originally enacted by Congress in 1990, codified at 20 USC 1029(f) as part of the *Higher Education Act of 1965*, is a federal law that requires colleges and universities to disclose specific information about crime and security policies on an annual basis. The original law, and subsequent amendments, was championed by the parents of Jeanne Clery, who was murdered at Lehigh University in 1986. Amendments to the Act in 1998 renamed it in memory of Jeanne Clery (*The Clery Act*).

In 2008, the *Higher Education Opportunity Act (HEOA)* (Public Law 110-315) reauthorized and expanded the *Higher Education Act of 1965*, as amended. *HEOA* amended the Clery Act and created additional safety and security related requirements for institutions of Higher Education.

The information contained in this report is provided to assist students in making decisions that may affect their personal safety when considering enrollment at Chemeketa Community College. The report also provides students, prospective students and current employees' information they may need to avoid becoming victims of crime on campus.

Safety and Security at Chemeketa Community College is a community effort among our students, administration, employees and volunteers. Safety and Security concerns are recognized as an important part of providing an appropriate learning environment. Chemeketa Community College through its Public Safety and Risk Management departments is committed to preserving a safe and secure environment on behalf of every person who uses, works, and learns at the college.

Campus History and General Information

Chemeketa became a community college in 1970, and is currently comprised of the Salem campus with additional outreach centers located in McMinnville, Woodburn, Dallas, Brooks and Stayton. In addition, the Center for Business and Industry (CCBI) provides training in downtown Salem, and Chemeketa at Eola houses the Northwest Viticulture Center. The Salem campus consists of approximately 185 acres, nine major buildings and approximately 50 smaller buildings. Chemeketa, an open campus with no physical barriers between the campus and Marion County, is the second largest community college in Oregon, serving approximately 49,300 students a year.

Chemeketa does not have residential housing facilities, either on or off-campus.

Chemeketa's Public Safety Office

The Public Safety Office is part of the College Support Services Division (CSSD). The Vice President/Chief Financial Officer heads CSSD, and reports directly to the President of the college.

Public Safety Office

The purpose of Chemeketa's Public Safety Office is to promote and maintain the safety and security of persons who use the college, and ensure property owned by the college is secure. The purpose is accomplished by:

- Providing fair and impartial enforcement of college regulations.
- Providing assistance to students, employees and the general public.
- Prevention and detection of unlawful criminal activity.
- Cooperation with public safety entities at all levels.

Authority

Public Safety Officers ("officers") have authority to enforce all rules and regulations promulgated by the college, and in addition may make physical custody arrests for offenses committed in their presence. Public Safety employees responds to all manner of calls for service originating on property owned by the college.

Under Oregon Revised Statute (ORS) 341.300, the College Board of Education has adopted regulations governing policing, control and regulation of traffic and parking of vehicles on college property. That statute gives Public Safety officers the authority of peace officers in enforcing regulations adopted by the Board. The college has entered into an agreement with the local justice court to allow Public Safety officers and local and state police officers to enforce violations and laws contained in the Oregon Vehicle Code on college roadways and parking lots.

Officers are trained in a variety of law enforcement related topics, carry normal defensive weapons, including handcuffs, baton and pepper spray, and have received first aid and Automated External Defibrillator (AED) training. Officers are not armed.

Duties

The Public Safety Office provides services to all outreach campuses, and uniformed presence on the Salem campus 24 hours a day, every day of the year. Officers conduct foot, vehicular and bicycle patrols on the Salem campus. In addition, officers are in contact with Public Safety dispatch by radio, and also have radio communications with the local Sheriff's Office, 911 dispatch center, fire department and the college facilities department. Among the services provided by the Public Safety Office are: personal escorts during the evening or after normal business hours from buildings to parked cars, distribution and tracking of college keys, providing security for college facilities, investigation of criminal incidents, response to emergencies, response to fire and security alarms, response to injuries or illness, investigation of traffic accidents, response to safety hazards, crowd control, parking and traffic enforcement, jump starts for dead batteries, found and lost property, delivering emergency messages, general information and other types of calls for service.

The Public Safety Office also administers a system of closed circuit television cameras to act as a deterrent to unlawful or unsafe activity and to identify persons who may be responsible for such activity.

Personnel from the Public Safety Office also are available to address potential security or safety concerns in presentations to groups, or to assist in developing procedures to address concerns upon request.

The Public Safety Office has a close working relationship with the Marion County Sheriff's Office. Sheriff's deputies are stationed near the Salem campus and provide support for officers when requested, and both entities share relevant information to apprise each office of information related to actual or potential criminal activity on campus or in the surrounding area. The Public Safety Office is also in contact with local and state police agencies concerning safety of persons and property at outreach locations.

Reporting Crimes on College Locations (503-399-5023)

Criminal activity or emergencies should immediately be reported to the Public Safety Office, located in Building 2, on the Salem campus, either in person or by telephone at 503-399-5023. The Public Safety Office may also be contacted to discuss security concerns. In the event of a situation believed to be life threatening, such as fire or medical emergencies, the local emergency response center may be reached by dialing 911 from any college phone. The 911 center has flagged the campus address so any call from the college would alert the call taker to call the Public Safety Office to ensure our officers also respond, however we also urge anyone calling 911 with an emergency to also notify the Public Safety Office.

In addition, red telephones are located on the Salem campus. Simply picking up a red phone will place the caller in direct contact with the Public Safety Office.

Location of Red Phones on the Salem Campus

Building	Location
2	First floor next to the Public Safety Office
5	Second floor across from room 264
6	First floor, main entrance by the elevator
7	Main entrance, near the racquetball courts
8	First floor by the reception area
9	First floor, main entrance by the elevator
22	Main hallway by the reception office
50	Main lobby

A review of red phone installation is conducted on a continual basis to determine the appropriate location and number of telephones.

Public Safety employees respond to all calls for service, but do prioritize response in accordance with the immediacy of the situation and in consideration of the work load at the time the call is received. Response will be addressed under the following priority: 1. matters involving personal safety or violence; 2. property crimes; and 3. general requests for service.

The Public Safety Office strongly encourages anyone who witnesses a crime or suspicious activity, or has knowledge of criminal activity on college property, to report that information either in person or by telephone in a timely manner. Reports by witnesses are kept confidential to the extent lawfully possible. However, the college does not have any policies or procedures that allow victims or witnesses to report crimes on a voluntary confidential basis for inclusion in the Annual Security Report. In addition, although theft on college property is relatively infrequent, employees, students and visitors are encouraged to take responsibility for their personal property by not leaving items of value unattended, either in college buildings or parked vehicles.

Reports are written to document activities of the Public Safety Office, and are subject to Oregon's Open Records Laws. These reports are maintained on a computerized database, and copies are provided to the Marion County Sheriff's Office. Stolen items identified by serial number are entered in a nationwide law enforcement database to assist in potential recovery of those items.

Crime Statistics

The following tables of crime statistics reflects the criminal offenses required to be reported by the Act. They are tabulated from statistical information compiled by the college Public Safety Office, in addition to information received from state and local law enforcement agencies with jurisdiction in areas where the college has a presence:

General Safety

Safety of employees and students, by college policy, is a major consideration of the college. It is important for employees and students to be aware that the college property, like the community in general, may not be completely free of criminal acts. Chemeketa and its administration strongly believe everyone has a role in providing a safe learning environment. The college community should use common sense precautions to avoid becoming a victim of a crime. Consider the following suggestions:

- Avoid walking alone during evening hours.
- Park in well-lit areas.
- Be aware of your surroundings, and don't act like a potential victim.
- Scan the interior of your parked car before entering.
- Do not leave personal items unattended, either in parked vehicles or college buildings.
- If appropriate, contact the Public Safety Office for an escort to a parked vehicle.
- Notify Public Safety at 503-399-5023 of suspicious activities or people.

Access to Campus Facilities

Chemeketa's Salem campus is an open campus, and does not have campus or off-campus housing facilities. Buildings at the Salem campus are generally open only when classes are scheduled. When the campus is closed, all exterior doors are locked prohibiting unauthorized entry. Buildings are locked and the campus is closed between 10:00 p.m. and 6:00 a.m. each day and all day on Sunday and holidays.

Entry to buildings by authorized persons outside of normal business hours is possible by using an issued key or electronic access card, or by calling the Public Safety Office. Keys and access cards are issued upon approval by the appropriate administrator.

Access to buildings at outreach campuses is normally controlled by the dean of each location.

Chemeketa Crime Awareness and Prevention Programs

Public Safety provides weekly notification of campus crime information in the *Courier*, the student newspaper. In addition, articles related to personal safety, protection of personal or college property and general safety-related issues are also published in the *Courier*. This same type of information is also included in the employee e-mail system, Employee Dashboard. Other appropriate steps are taken when necessary to issue a timely warning of a crime that is deemed to represent a threat to students and employees to aid in the prevention of similar crimes.

The college has a variety of pamphlets related to personal safety issues that may be obtained from the Public Safety or Student Life offices. The college encourages students and employees to participate in public safety sponsored crime awareness programs, by accessing various college communications:

- *Chemeketa Courier*
- Division newsletters
- Brochures
- Department presentations addressing specific concerns
- Chemeketa Intranet and Employee Dashboard
- My Chemeketa for students
- New Employee Orientation and New Student Orientation

The Public Safety Office may provide or coordinate presentations on crime awareness, personal safety and other related topics on request.

Emergency Management

Chemeketa's Safety and Risk Management

The Safety and Risk Management Office is part of the College Support Services Division (CSSD). The Vice President/Chief Financial Officer heads CSSD, and reports directly to the president of the college.

The college has developed emergency procedures for each college location. These procedures outline basic actions individuals can take if they are presented with an emergency situation such as earthquake, building evacuation, fire etc. Hard copies of the procedures are posted conspicuously throughout all college buildings.

The college has adopted the Incident Command System for responding to emergencies. During an emergency, the designated incident commander shall determine if the situation poses an immediate threat to the health or safety of students, visitors or employees. If the emergency is confirmed the incident commander will determine the content of the message and initiate the notification system.

✓ Drug Free Work Place Procedure 2252

A. Standards of Conduct

Employees at Chemeketa Community College serve as public employee role models for students and community citizens. That role carries an obligation to not only honor all statutes relating to the illegal use of drugs, or abuse of alcohol, but also to model good health habits as public servants.

Federal laws require the college to maintain a drug-free workplace to continue qualifying to receive federal funds. The college is committed to helping employees as needed to address any violation of the drug and alcohol policies or procedures.

Education and any necessary treatment are goals in addressing issues around drug and alcohol issues. Inappropriate behavior and violation of drug and alcohol policies or procedures may result in some type of punishment. However, disciplinary action is not the purpose of the drug and alcohol policies and procedures. Education, health, and safety are the primary objectives around these drug and alcohol issues.

Chemeketa Community College is committed to maintaining employee safety, health, and efficiency by prohibiting in the workplace persons who are impaired, or under the influence, or who illegally manufacture, use, dispense, possess, or distribute alcohol or other-drugs. All employees of the college must abide by these procedures and associated policies and procedures relating to alcohol and other drug abuse. (See Policy 2250 and Procedure 2250, 2251.)

Employees have an obligation to notify the college and provide documentation, if they are under any prescribed medication, which could compromise safety issues or adversely affect their performance.

Denial can be a major roadblock to effectively addressing any issues around abuse of drugs or alcohol. Employees are encouraged to cooperate with college officials in honoring these procedures and the related policies and procedures. Cooperation usually results in more leniency; denial usually results in more disciplinary action.

B. Educational Aspects

1. Stages in a Relationship with Drugs (Below are the four possible stages or types of alcohol or other drug use):
 - a. Experimentation
 - “Trying” a mood altering substance to experience “how it feels.”
 - b. Use
 - Using a mood altering substance for a specific purpose. This could be either **MEDICINALLY OR SOCIALLY**.
 - The individual in this stage maintains control of **WHEN** they use, **HOW OFTEN** they use and **HOW MUCH** of a substance they use.
 - c. Misuse/Abuse
 - The individual begins **LOSING CONTROL** of **WHEN** they use, **HOW OFTEN** they use and **HOW MUCH** of a substance they use.
 - Can be either **MEDICINAL** or **SOCIAL**.
 - **DISCOMFORT** will occur when the individual’s “drug of choice” is unavailable.
 - Individual will begin experiencing **ADVERSE CONSEQUENCES** as a result of their relationship with a particular substance.
 - d. Chemical Dependency/Addiction
 - In addition to the above-mentioned experiences, the individual at this stage will continue **TO USE, MISUSE and ABUSE** a substance **DESPITE ADVERSE CONSEQUENCES**.
 - Once an individual reaches this stage, it is not possible to return to “controlled use” as described in the first two stages.

REMEMBER: Addiction is an illness no one chooses to have. It is involuntary and marked by a resistance to give up the drug(s).

2. Consider the high cost of drug abuse:
 - Absenteeism
Employees who use drugs are 2 times (i.e. 200% more likely) more likely to have absences of eight days or more per year.
 - Productivity
Drug-using workers are one-third less productive (i.e. 33% less productivity).
 - Safety
Workers who use drugs are 3.6 times more likely to injure themselves or another person in a workplace accident (i.e. 360% more likely to have accidents).
 - Worker’s Compensation
Employees who use drugs are 5 times (i.e. 500%) more likely to file worker’s compensation claims.
 - Medical Costs
The medical costs of drug users are 3 times (i.e. 300% higher) more than for other employees.

3. The impact of drug abuse on employee behavior:

4. Alcohol and Drug Abuse Programs

The college supports programs for the prevention of alcohol and controlled substance abuse by college employees as well as assistance programs for those with problems related to controlled substance abuse. Supervisors will facilitate employee participation in drug and alcohol awareness training sessions; employees are encouraged to attend.

Evaluation, counseling, and referral services are available, and assistance is provided on a confidential basis. In addition, the college shall continue to provide drug-free awareness programs to inform employees of the dangers of drug abuse; existence of and content of this policy for maintaining a drug-free workplace, availability of drug counseling, rehabilitation, and employee assistance programs; and penalties that may be imposed for drug-abuse violations occurring in the workplace.

Part-time hourly, adjunct faculty, and student employees should consult with their supervisors for referral to available treatment programs. Salaried employees (who are eligible) are encouraged to seek assistance for alcohol and controlled substance dependence problems through the college Employee Assistance Program.

C. Evaluation

1. Any employee who has reasonable suspicion, or determines that another employee has violated Chemeketa's policies or procedures regarding alcohol or drug abuse, may report that to his/her supervisor or to the supervisor of the employee believed to be abusing drugs or alcohol.
2. Reasonable suspicion of employee use of a controlled substance shall be based upon any of the following:

6. Any employee under suspicion of violating policies or procedures on abuse of alcohol or drugs may be required by their supervisor to take a drug test.
 - a. Supervisors shall record the basis for any reasonable suspicion.
 - b. Supervisors shall make a good faith attempt to obtain a second opinion on all reasonable suspicions and have a second witness record that information.
 - c. Supervisors shall follow the testing procedures when a college test is going to be administered and arrange transportation to and from the test site.
 - d. **If employees refuse to be tested, that action will be interpreted by the college the same as an admission to a violation of the drug-free workplace procedures or alcohol and other drug abuse policies or procedures, and subject to whatever action is deemed appropriate by the college.**

D. Testing

1. Whenever applicable, the County Sheriff's department or other appropriate law enforcement agency may be called to take appropriate action.
2. Whenever the college requires any testing, it will be conducted by an independent laboratory experienced and qualified to conduct such testing (i.e. Lancaster Urgency Care Clinic, Kaiser Permanente, Salem Hospital, etc.) **No random drug testing shall be done.**
3. The sample collected from the employee will be "split" after collection. One portion of the sample will be tested and the other portion will be retained by the laboratory. If the employee disputes the results of the test, he or she may have the laboratory re-test the remaining portion of the split sample, at the employee's own expense.
4. An employee will be considered to have tested positive for alcohol if the employee has a blood alcohol level of .04 percent or higher.
5. If an employee's performance is affected by the appropriate use of prescribed medication, the employee will not be subjected to disciplinary action but may be relieved of duty, at the discretion of the supervisor, until the performance or safety issues are resolved to the college's satisfaction.
6. Confidentiality of testing and test results shall be protected to the extent possible. Only persons with a need to know shall be informed.

E. Treatment and Sanctions

1. Whenever an employee has been found to be in violation of these procedures, or the alcohol and other drug abuse policies or procedures, a further evaluation by qualified outside drug or alcohol professional may be required.
2. Cooperation with any requested professional evaluation and any subsequent treatment program recommended are in the employee's best interest. Honoring these steps is the best way to protect an employee's position with the college.
3. Successfully completing any drug or alcohol treatment program will not be used against an employee in other non-related matters.
4. Abuse of controlled substances (note: controlled substances are drugs available only by approved prescription or age requirements, or considered illegal) or alcohol in the workplace is dangerous and must be avoided. Any employee convicted of violating a criminal drug statute in the workplace must notify his/her supervisor and personnel director no later than five (5) days after such conviction.
 - a. The personnel director shall notify the appropriate federal granting or contracting agency within ten (10) days after receiving notice of the criminal drug statute conviction.
 - b. Within thirty (30) days of an employee's criminal drug statute conviction for violation occurring in the workplace, the college shall: take action with regard to the employee

determined to be appropriate, which may include transfer, granting of leave with or without pay, or discipline up to and including termination, and/or require satisfactory participation by the employee in a drug abuse assistance or rehabilitation program.

F. Applicable Legal Sanctions Under Local, State, and Federal Law for Unlawful Possession, Use, or Distribution of Drugs and Alcohol.

Local, state, and federal laws are very complex regarding penalties for possession, distribution, and use of controlled substances (drugs). [See ORS Chapter 475—Controlled Substances; Chapter 161—Crimes and Punishment; Chapter 471—Alcoholic Liquors.] However, the absolute minimum will be a \$500 fine for possession of some “less dangerous” drugs. From that minimum, as the severity of the offense increases, the penalties increase up to \$300,000 fine and 20 years in jail.

A minor in possession of alcohol can result in a fine of up to \$300 with more serious offenses, such as providing alcohol to minors, carrying much more severe penalties. The penalty for providing alcohol to minors can range from a \$350 fine to a \$1,000 fine, a year in jail, and community service. The most severe penalties result from accidents or incidents in which the participants are intoxicated. This category also includes those who may have supplied the alcohol to the participants.

If present, employees shall notify the Public Safety office of their presence. Employees of the college are not allowed to sleep overnight in a college building.
- IV. Student Access
- A. Students have general access, but may be granted restricted access based on an identifiable college need.
 - B. Only persons enrolled in a given class or lab may attend that class or lab. Exceptions may be made by the college for special circumstances appropriate to the learning environment.
 - C. Requests for exceptions will be directed to the appropriate executive dean, dean, or director for approval.
 - D. Students are not allowed to be present in a college building when the campus is closed.

³ ORS 341.505

V. Visitor Access

- A. Visitors have community access to college facilities.
- B. Visitors may not use college facilities without paying the appropriate fee when fees are charged for participation in the class or activity.
- C. Visitors are not allowed to be present in a college building when the campus is closed.

VI. Children's Access

- A. Childcare facilities of the college are exempt from the restrictions imposed on a child's presence on campus by these procedures.

- B. A Public Safety representative will determine if a person is in an area without appropriate access and take necessary action.
- C. In the case of an unsupervised child, employees of Public Safety will attempt to determine the identity of a child, if supervised or not, and locate an adult responsible for the child.

✓ Emergency Management Policy 2350 (pending college approval)

Chemeketa Community College shall establish and maintain procedures for emergency management response and evacuation of college property in compliance with the U.S. Higher Education Opportunity Act of 2008⁴.

Procedures shall be drafted and maintained by the college's Emergency Preparedness Committee and will include the following:

- A statement that the institution will, without delay, and taking into account the safety of the campus community, determine the content of the notification and initiate the notification system, unless the notification will, in the professional judgment of responsible authorities, compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency.
- A description of the process the institution will use to confirm that there is a significant emergency, determine who to notify, determine the content of the notification, and initiate the notification system.

⁴ U.S. Higher Education Opportunity Act 20 U.S.C. § 493 (2008)

- Procedures to immediately notify the campus community upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on campus.
 - A list of the titles of the persons or organizations responsible for carrying out this process.
 - Procedure for disseminating emergency information to the larger community.
- ✓ Emergency Management Procedure 2350 (pending college approval)

Emergency Response /Emergency Communication/Timely Warning Procedures which provide information regarding individual response to emergencies such as earthquake, fire, medical emergencies, building evacuation etc., are posted throughout the college facilities.

The college will without delay take into account the safety of the campus community when determining the need to communicate, the method of communication and the content of the emergency communication.

If in the judgment of responsible authorities emergency notification would compromise response efforts the communication may be delayed.

Salem Campus: Either by investigation or confirmed notification the Public Safety office will be primarily responsible for confirming actual or the threat of an emergency situation. Depending on the nature of the situation the Public Safety office has the discretion to activate emergency notification systems such as the public address system or emergency text messaging, Initial emergency messages provide instruction for directed activities such as evacuation, lock down, severe weather, etc. With the passage of time the public information officer and college administration will determine the need for, content of and the means of communication to disseminate information to the target audience.

With the passage of time the means of communication may expand to the larger communities and in addition to public address and emergency text may include web page updates, messaging to email accounts, TV, radio notification, press releases, etc. These communications will typically provide more detailed information and instruction.

Yamhill Valley Campus: The director and/or their designees are primarily responsible for confirming emergency situations. This may or may not occur in conjunction with local law enforcement or other emergency response personnel. The director or their designee will contact Public Safety or other administrative personnel to initiate emergency communications in a similar process to the Salem campus.

Other college locations: The director and/or their designees are primarily responsible for confirming emergency situations. This may or may not occur in conjunction with local law enforcement or other emergency response personnel. The director or their designee will contact Public Safety or other administrative personnel to initiate emergency communications in a similar process to the Salem campus.

Evacuation

When notified by an alarm or public address system of the need to evacuate, all occupants must leave through the nearest possible exit. Many areas of the college have Building Evacuation Coordinators (BEC's). The BEC's will direct the evacuation and/or identify and assist individuals with disabilities. Once outside of a building, the BEC's will provide additional information regarding the emergency. The BEC's participate in a mock evacuation exercise at least bi-annually. Any planned evacuation drills will be announced meaning that all alarms or other notifications to evacuate shall be treated as a real

emergency until notified differently. Public Safety will maintain documentation relating to each evacuation and exercise and there participants.

The college has implemented procedures for assisting individuals with disabilities in preparing for emergency building evacuation. Evacuation guidelines, tips and plan development information can be obtained at <http://www.chemeketa.edu/services/disabilities/evacuation/index.html>

✓ Consensual Relationship Policy 1753

General Statement

Chemeketa Community College is committed to providing its students, employees, and clients with an environment focused on learning and growth. The college has a responsibility to promote an atmosphere of professionalism, respect, and trust and to prevent any appearance of impropriety. The decision-making processes must be seen by employees and students as fair and without favoritism.

Employees involved in a consensual relationship with other employees or students potentially jeopardize this commitment. A consensual relationship is a close personal relationship of a romantic or sexual nature between willing participants who both are of legal age and possess legal capacity. When one person in the relationship has power over the other because of their position at the college, a

consensual relationship can raise questions of fairness, may undermine the integrity of decisions, and can also create a hostile and unacceptable environment for others.

Moreover, such relationships may be less consensual than the individual whose position confers power believes. The relationship is likely to be perceived in different ways by each of the parties, especially in retrospect. While consensual relationships involving employees and students may begin and remain harmonious, they are susceptible to being characterized as unprofessional and disrespectful to others.

Intent of Policy

While the college is not interested in intruding on the personal lives of employees, consensual relationships can affect the ability of an employee to carry out the responsibilities of his/her job and affect the performance of others. This policy is intended to balance the interests of the college, of students, and of employees.

Policy

Employees involved in a consensual relationship with another employee or student are prohibited from supervising or making grading decisions related to that person.

Examples of relationships that prevent an employee from supervising or making grading decisions are as follows:

- Supervisor in a consensual relationship with a person he/she supervises;
- Faculty member and a student enrolled in his/her class;
- Employee in a position to make or influence decisions about students in a consensual relationship with a student

Applicability

This policy applies to all college employees or anyone serving in a supervisory capacity on behalf of the college and vendors when they are interacting with college personnel.

Sanctions

Any person who engages in behavior prohibited by this policy is subject to discipline that may include termination, subject to any association contract that may apply. In the case of vendors, violation of college policy may be a breach of the contract between the college and the vendor.

Retaliation

It is critical that everyone feel free to come forward with complaints or concerns regarding inappropriate conduct. Retaliation against any person for making a complaint or for providing information concerning a complaint is prohibited. Any acts of retaliation may result in a sanction as outlined in the sanction portion of this policy.

- ✓ Consensual Relationship Procedure 1753

Guidelines to avoiding problems with consensual relationships

In consensual relationships involving employees, or employees and students, it is the responsibility of the person with the most power to make explicit arrangements to assure that the decision-making processes will be fair and without favoritism. Employees will work with their supervisor in making arrangements to avoid problems with this policy.

Pre-existing consensual relationship with a student

If an employee has a pre-existing consensual relationship with a student, the student should be discouraged by the employee from the following:

- Enrolling in courses taught by the employee;
- Entering into work situations in which he/she would be supervised by the employee.

If a student enrolls in a course or works under the supervision of an employee where a consensual relationship exists, it is the responsibility of the employee to make explicit arrangements with his or her supervisor to assure compliance with this policy.

Pre-existing consensual relationship with an employee

If an employee has a pre-existing consensual relationship with another employee and a reassignment occurs which requires one of the employees to exercise supervisory, appointment or grievance adjustment authority over the other, it is the responsibility of the person with the most power to make explicit arrangements with his or her supervisor to assure compliance with this policy.

Visitors who ignore warnings and continue behavior prohibited by this policy may be issued a trespass notice.

Retaliation

Retaliation against any person for making a complaint related to this policy or for providing information concerning a complaint is prohibited.

Exceptions

Any exceptions to this policy must be preapproved by the President/CEO or designee.

State and Federal Laws

Both state and federal laws provide sanctions for possession, manufacture or distribution of illicit drugs. Penalties vary according to the substance involved. Under federal laws, penalties range from fines to long prison terms, including life imprisonment. Oregon law similarly provides penalties ranging from fines to prison terms.

Oregon law prohibits, and allows fines for minors (persons under the age of 21) who possess or attempt to purchase alcohol (fines up to \$300). The sanction for providing liquor to a minor can be a fine or a fine and jail term, depending on the circumstances. Mandatory minimum sentences are:

- First conviction, \$350;
- Second conviction, \$1,000; and

- Third or subsequent conviction, \$1,000 and imprisonment of not less than 30 days.

Oregon law also prohibits the possession of tobacco products by anyone under the age of 18, and the sale of tobacco products to anyone under the age of 18. Violation of these laws may result in fines of up to \$300.

Students seeking help with an alcohol or drug problem at Chemeketa are encouraged to visit the Advising and Counseling Center in building 2.

Sexual Assaults/Sexual Violence

Inappropriate student behavior is addressed in the "Students Rights and Responsibilities" section of the college catalog and in the student handbook. Anyone who commits a sexual assault/sexual violence faces criminal charges and disciplinary sanctions. Students responsible for a sexual assault/sexual violence also are subject to administrative sanctions imposed by the Dean of Students, including expulsion from the college. Disciplinary procedures in all alleged sexual assaults/sexual violence include the following:

- The accuser and accused are entitled to the same opportunities to have others present during a campus disciplinary proceeding; and
- Both the accuser and the accused shall be informed of the outcome of any campus disciplinary proceeding brought alleging a sexual assault.

In addition to contacting the Public Safety Office and local law enforcement officials, students are urged to follow the steps contained in the "Student Rights and Responsibilities" document for reporting sex offenses and other criminal acts.

The Public Safety Office can assist students and employees with information and assistance related to sexual assaults/sexual violence, including:

- Reporting assaults to appropriate law enforcement agencies and options of agencies to report to;
- Preservation of evidence necessary for the investigation of sexual assault/sexual violence and prosecution of those responsible;
- Notification of students of existing counseling, mental health or student services for victims of sexual assault/sexual violence, both on campus and in the community; and
- Options of changing academic situations after an alleged assault if such changes are reasonably available.

Sexual Harassment

It is the specific policy of Chemeketa Community College that sexual harassment of any employee or student will not be tolerated. Sexual harassment is any unwelcome behavior or display, whether verbal, physical or visual in nature, which meets any of these criteria:

- Submission to such condition is an explicit or implicit condition of employment or academic performance; or

- Submission or rejection of the condition by an employee or student is used as a basis for decisions affecting that person's employment or academic performance; or
- The condition has the purpose or effect of unreasonably interfering with an individual's work performance or academic performance or creating an intimidating, hostile or offensive working environment or academic environment.

The college also has a Consensual Relationships policy addressing consensual relationships between students and college employees, and supervisor and employees.

To deal with reported incidents of sexual harassment, the college has established a Harassment Network comprised of members who are trained to address issues related to various types of harassment, including sexual harassment. The college has published a Harassment/Discrimination pamphlet, which contains information about sexual harassment, as well as other forms of harassment, actions that can be taken when faced with harassment, where to get help, and the names of Network members.
