

Speech-Language Pathology Assistant Programs

speechpathology.chemeketa.edu

The Speech-Language Pathology Assistant (SLPA) program is a comprehensive certificate and degree program of both theory and practical experience designed to prepare students to become certified Speech-Language Pathology Assistants (SLPAs).

An SLPA is a certified support person who works under the supervision of a licensed speech-language pathologist. The SLPA performs specific therapy-related tasks that are prescribed and directed by their supervising speech-language pathologist. The SLPA works closely with others in a variety of settings, including schools, hospitals, rehabilitation centers, and in private practice. As a member of a speech-language therapy team, the SLPA helps children and adults with communication disorders improve their ability to speak, listen, and interact with others. SLPAs are responsible for taking and tracking data, and following the direction of others while working independently to deliver therapy services to children and adults.

The SLPA program will heavily assess communication skills in the areas of speaking and writing. Students who are ESOL speakers must have a satisfactory TOEFL score or ESOL level. Students applying to the SLPA program will be required to: communicate clearly in English with clear articulation skills, use writing skills to take data, communicate clearly in chart notes, and use written discourse in taking descriptive therapy data and dialogue.

In order to be employed as a Certified Speech-Language Pathology Assistant in Oregon, one must hold current certification as a Speech-Language Pathology Assistant with the Oregon Board of Examiners for Speech Pathology and Audiology.

For more information, contact the Oregon State Board of Examiners for Speech Pathology and Audiology: 971.673.0220,

www.oregon.gov/BSPA/index.shtml

Total required credit may vary due to three to four credit conversion. Chemeketa degree and certificate minimum requirements must be met.

Program outcomes

Students completing the AAS or earning Certificate of Completion will:

- Conduct individual and small group speech and language therapy services as directed by supervising Speech-Language Pathologist.
- Accurately record and organize data taken from the therapy sessions and communicate findings to supervising Speech-Language Pathologist.

This SLPA program is a limited-enrollment program with special admission requirements. An application packet is required to apply for admission to this program. This is a separate step in addition to the placement testing and meeting with Counseling and Career Services department. Applications are available on the program Web site: speechpathology.chemeketa.edu. Application deadlines are typically July 15 for fall term entry and February 1 for spring term entry. Once admitted, students are required to follow the prescribed outline of the courses throughout the program. For those students who are taking only the SLPA program courses, a course load of 6-9 credits is considered part-time. The program typically takes 5-7 terms to complete attending part-time.

Students enrolled in the SLPA program are required to complete two terms of practicum coursework and 100 clinical interaction hours under the supervision of a speech-language pathologist. SLPA students must work with program staff to identify a suitable practicum supervisor and site. SLPA program students are required to submit and pass a national FBI criminal background check, including fingerprinting at their own expense, in order to continue coursework in the program.

Getting started

The first step to entering the SLPA program is to obtain the current SLPA program application from the SLPA program website: <http://speechpathology.chemeketa.edu>. Students may need to take part in an assessment process to demonstrate competent abilities in the pre-program coursework areas, including computer literacy, keyboarding, math, reading, and writing. Students are strongly encouraged to meet with the designated counselor for the SLPA program within Counseling and Career Services to formulate an individualized program of study, which may include the following pre-program courses:

CIS101	Introduction to Microcomputer Applications.....	3
MTH060	Introductory Algebra	4
RD115	Academic Thinking and Reading.....	3
WR115	Introduction to Composition	4

If you have any questions about the requirements, contact Counseling and Career Services at 503.399.5120.
