How to Be an Executor

If you have a Will, you have named someone called a Personal Representative or Executor to manage and distribute your assets and property after your death. If you are planning to make a Will, you must think carefully about who should bear this responsibility. Perhaps you have been named as a Personal Representative in someone else's Will. Do you know what's involved and what to do? Being an Executor or Personal Representative is a major legal responsibility. It can, and usually is, confusing, stressful, and time-consuming. Nearly everyone who has ever served as a personal representative or executor has one of these reactions: "I'll never do that again!" or "I wish I had known what I was getting myself into when I said okay to my friend when I was asked to be a personal representative!" Knowing what is involved in the probate process and how to be a Personal Representative can make this end-of-life process easier and more manageable. This workshop will cover the fundamentals of the Probate process, how to choose a personal representative and who may qualify, what are the personal representative's fiduciary responsibilities and obligations, how to collect, inventory, and account for and sell assets, pay bills and taxes, keep adequate records, and distribute assets to beneficiaries. Finally, we will discuss when is it over? and can I get paid for all this work? Kasia Quillinan, JD, is a retired attorney and legal instructor. She teaches a Wills and Trusts, Guardianship and Conservatorship class for Chemeketa Community College, as well as other legal subjects. Lunch will be provided.
