Calligraphy

“Thank you so very much for including me in your Uncial Workshop yesterday. It was a wonderful opportunity for all of us to learn the basics of this beautiful alphabet. I know I learned much from your expert instruction. I especially appreciate all the tips and pointers that people don’t find in books, such as the importance of arm movement, correct angle of the paper, and correct breathing. You made the workshop not only instructional but fun by establishing an accepting, informal atmosphere.”
