Introduction

At Chemeketa Community College we are committed to transforming lives and communities through exceptional learning experiences. It is one of our promises to actively encourage and support successful transition from high school to college and university study. Chemeketa's College Credit Now program is one opportunity that has been proven effective for most students to increase chances of successful participation and persistence in community college and university settings.

Consistent with the accelerated learning standards adopted by the Higher Education Coordinating Commission, all high school-based accelerated learning offered by Chemeketa Community College will align with the standards of one of the three currently approved programs: Dual Credit, Sponsored Dual Credit and Assessment-Based Learning Credit

Chemeketa's College Credit Now (CCN) Dual Credit Program was recognized as a state approved program in 2012 and continues to operate under the current Dual Credit standards as a state approved program.

Dual Credit, as defined by the standards, refers to a course that is:

- a) Offered as part of the high school program,
- b) Taught by a high school teacher, acting as a proxy instructor for the college/university, who has been approved by the college/university and meets the qualifications to teach the course for the college/university, and
- c) Sufficiently similar to the college/university course to enable the student to be described as "taking a course from the college or university". Dual credit students enroll in the college course and grading and transcription is consistent with those of like courses at the college or university. (Credit may also be granted by the high school toward graduation requirements, as appropriate.)

The Oregon Dual Credit Standards align with nationally recognized practices and very specifically focus on replicating, to the greatest extent possible, the college or university course in the high school. This includes requiring the participating high school teacher to meet the qualifications to teach the course for the college/university.

College Credit Now is proud to partner with school districts from around the state to provide this exceptional learning opportunity to eligible students. As we look to the future, we strive to meet the diverse learning needs of Oregon students with a focus on equity outcomes to identify and reduce disparities in student access and success.
